Diagnosing and Resolving Common Kubernetes Issues

James Willett

Principal Software Engineer

https://jameswillett.dev

Error Scenarios

CrashLoopBackOff

ImagePullBackOff

Pending pods

Networking issues

OOMKilled

Kubernetes Troubleshooting Workflow

1. Observe	*kubectl get pods*
2. Describe	*kubectl describe pod*
3. Logs	*kubectl logs*
4. Events	*kubectl get events*
5. Fix	*kubectl apply*
6. Verify	*kubectl get pods*
